

## Beginnings Extended Day (XD) Program Information

Beginnings XD programming at St. Andrew's United Methodist church is an option for extending your child's day at preschool to include extra whole group activities, games, gross-motor fun, and enrichment time in the afternoon. XD time takes place from 11:30 am to 3:30 pm, after morning preschool. Since the first year of our program, families have appreciated this option as an extension and enhancement to their child's preschool day, as well as a way for working parents to meet additional care needs for their child.

We offered Beginnings XD during the 2020/21 school year but did make some changes to the structure and staffing of the program, due to concerns with COVID-19. After considering current community health conditions and recommendations, our plan for implementing XD for the 2021/22 school year will include the following:

- We plan to have one group of mixed-age students on each of our XD days – Monday through Thursday – and there will likely be students from different classrooms as part of the XD afternoon group on any given day.
- Students who participate in XD may be required to wear a mask during that part of their day, even if there is no local regulatory mask mandate in place at that time. We will consider the most current information and advice from local health officials and the CDC in deciding about this requirement, and will let you know what to expect prior to the start of our school year.

To indicate your interest in enrollment for Beginnings XD for the 2021/22 school year, please return the bottom half of this form via US mail, or email to [Beginnings@standrewsomaha.net](mailto:Beginnings@standrewsomaha.net). When we receive your form, we will contact you to confirm availability on the XD days that you are requesting.
